

HYUN OH-SEOK

HYUN Oh-Seok is currently Chair Professor of the Korea National Diplomatic Academy. He is a Member of the International Advisory Panel of the Asian Infrastructure Investment Bank (AIIB) and a Member of the Board of Directors of the Korean Economic Institute of America (KEI). He served as the Deputy Prime Minister and Minister of Strategy and Finance and as the President of the Korea Development Institute (KDI), Korea's leading think tank. He has been a member of the Presidential Council on National Competitiveness, Presidential Committee on Green Growth, Committee for Public Private Partnership (PPP) Investment Projects, National Council on the Social Security System, Korea-Germany Joint Consultation Committee on National Unification, and International Development Cooperation Committee.

He has further partaken in the international policy coordination joining the G20 Finance Ministers Meeting and actively engaged in development and cooperation as a member of the Knowledge Advisory Commission of the World Bank. He also served as the President of the Institute for International Trade of the Korea International Trade Association (KITA), contributing to the formulation of international economic policy for trade agreements.

He was the Deputy Minister of Finance and Economy and Secretary for Economic Affairs at the Office of the President, and Economist at the World Bank. He has successfully led macroeconomic policies and structural reforms of Korea during the Asian financial crisis and global financial meltdown. His extensive experience in policy-making and research in the public sector is a unique career path for a government official in Korea. He was rewarded a professorship at the Korea Advanced Institute of Science and Technology (KAIST) and the Dean of the National Tax College. He also served as the Chairman of the State Owned Enterprises (SOEs) Evaluation Board for the Ministry of Strategy and Finance.

Dr. Hyun regularly provides insightful knowledge on open-economy macroeconomics, financial markets, infrastructure, industrial policies and international development through publication and media interviews to further contribute towards designing of economic policies suitable for this truly global era. He received his Ph.D. in Economics from the University of Pennsylvania.
